

DÜBÖR®

RELEASING AGENTS

Dübör pan release agents are made from 100% natural ingredients formulating the most efficient releasing oil that generates an odorless thin adhesion-prevention film allowing a smooth release without any debris and deformation.

PAN RELEASE AGENT

Trennaktiv® PR100

Premium Releasing Agent

This universal baking release agent is made of rapeseed and palm oils combined with sunflower lecithin and Carnauba wax for high viscosity, it can operate up to 220°C making it perfect for all types of loaf pans and pastry molds.

Packaging : 3L Can | 15L Can | 200L Steel Barrel | 800L IBC | 1000L IBC
Shelf Life : 12 months

Trennaktiv® PR100Z

Premium Releasing Agent

A pan release agent with the highest viscosity consisting of rapeseed and palm oils, sunflower lecithin, and Carnauba wax, it is designed for long-life bakery products and confectionaries as well as for the flawless release of high sugar content products that are difficult to detach from molds and tins. Trennaktiv PR100z also works well with new tins for initial greasing.

Packaging : 3L Can | 15L Can | 200L Steel Barrel | 800L IBC | 1000L IBC
Shelf Life : 12 months

Trennaktiv® B110

Premium Releasing Agent

Composed of sunflower, palm, and rapeseed oils with Carnauba wax and sunflower lecithin, this universal pan release agent is specifically formulated with added tocopherol for higher oxidation stability, making it perfect for all high temperature applications. It has high viscosity and can withstand up to 240°C.

Packaging : 3L Can | 15L Can | 200L Steel Barrel | 800L IBC | 1000L IBC
Shelf Life : 12 months

Trennaktiv® B105

Premium Releasing Agent

A combination of palm and rapeseed oils with Carnauba wax and sunflower lecithin, this release agent that is perfect for all types of loaf pans and perforated trays.

Packaging : 3L Can | 15L Can | 200L Steel Barrel | 800L IBC | 1000L IBC
Shelf Life : 12 months

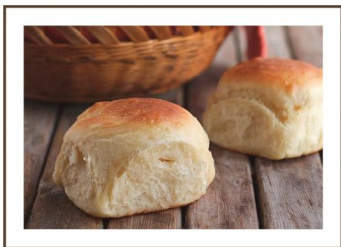

Trennwachs 30

Premium Releasing Agent

A combination of sunflower, palm, and rapeseed oils mixed with sunflower lecithin and tocopherol, this high-quality, low viscosity releasing agent is best for extruders, sheet cleaning machines, steel band ovens, and cooling conveyor belts.

Packaging : 600ml spray can | 3L Can | 15L Can | 200L Steel Barrel | 800L IBC | 1000L IBC
Shelf Life : 12 months

ORGANIC

Trennaktiv® BIO200

Premium Releasing Agent

A special type of product made up of organic canola oil, organic carnauba wax, and organic sunflower lecithin, the Trennaktiv Bio 200 is the universal release agent for all trays and tins used for production of organic products, as well as for the releasing of organic bread rolls, organic pastries, and organic confectionaries.

Packaging : 3L Can | 15L Can | 200L Steel Barrel | 800L IBC | 1000L IBC
Shelf Life : 12 months

Trennaktiv® BIO400

Premium Releasing Agent

A viscous organic product mainly used for releasing organic bakery goods for all trays and tins, this pan release agent contains organic high oleic sunflower oil, organic canola oil, organic carnauba wax, and organic sunflower lecithin.

Packaging : 3L Can | 15L Can | 200L Steel Barrel | 800L IBC | 1000L IBC
Shelf Life : 9 months

Bio ST OL

Composed of organic high oleic sunflower oil, organic canola oil, and organic sunflower lecithin, this release agent has low viscosity, making it more suitable as an organic lubricating oil for bread cutters, band slicers, dough dividers, and dough hoppers.

Packaging : 3L Can | 15L Can | 200L Steel Barrel | 800L IBC | 1000L IBC
Shelf Life : 6 months

LUBRICANT

SG-OL

Comprised of a combination of sunflower, palm, and rapeseed oils but with the addition of coconut oil and a dash of sunflower lecithin and tocopherol for antioxidation, this release agent is used for bread cutters, band slicers, dough dividers, and dough hoppers. SG-OL has very low viscosity thus providing the best lubrication on most surfaces and machine parts.

Packaging : 600ml spray can | 3L Can | 15L Can | 200L Steel Barrel | 800L IBC | 1000L IBC
Shelf Life : 9 months

AEROSOL

AEROSOL PR100

A ready to use pan release in a sprayable can, the PR100 Spray is comprised of rapeseed and sunflower oil, carnauba wax, sunflower lecithin, and tocopherol, and propellants. Perfect as a pan release agent for baking tins and molds, this product is also suitable for cooking and grilling.

Packaging : 600ml spray can
Shelf Life : 18 months

WHY DÜBÖR® ?

100% pure raw vegetable ingredients
No minerals
No allergens
Organic
No hardened oils
Concentrated formula

Low usage
Smooth product release
No releasing disfiguration
Consistent product color
Flawless product shape
Unaffected product taste
